### Personal Statement

Jusdeep is a caring and reliable individual whose happy nature makes her a great member of any team. She has a passion for horror stories. With Culture Device Jusdeep was part of the company during their residency at the Royal Opera House. They collaborated with Royal Ballet dancer David Pickering to create a version of The Rite of Spring which we named 'The Rite - reimagined'. Jusdeep contributed to the choreography, as well as performing the 15 minute long piece. Culture Device dancers also performed in a version of the performance for film by Adam Csoko Keller for Nowness magazine. This was a full-day of performance and recording in the Royal Opera House.
